

Dental Center Pediatrics

Plymouth, MA

Financial Policy

As a condition of treatment by this office, financial arrangements must be made in advance. The practice depends upon reimbursement from patients for the costs incurred in their care. Financial responsibility must be confirmed before treatment is rendered.

Payment at Time of Service

All emergency dental services, or any dental services performed without prior financial arrangements, must be paid in full at the time services are performed unless alternative arrangements have been agreed upon in advance.

Insurance

Patients with dental insurance understand that all dental services are charged directly to the patient. The patient is personally responsible for payment of all dental services rendered. This office will assist in preparing insurance forms and making collections from insurance companies, and any collections received will be credited to the patient's account. This office cannot render services on the assumption that charges will be paid by an insurance company.

Late Balances

A service charge of 1.5% per month (18% per annum) on the unpaid balance will be applied to all accounts exceeding 60 days past due, unless prior written financial arrangements have been made.

Fee Estimates

Any fee estimate for dental care is valid for a period of six months from the date of the patient examination. Estimates may change if treatment needs change or if fees are updated.

Agreement

In consideration for professional services rendered, I agree to pay all charges at the time of treatment, or within five (5) days of billing if credit is extended. I agree that charges shall be as billed unless disputed in writing within the time payment is due. I agree to pay all costs and reasonable attorney fees if legal action is required to collect an outstanding balance.

I also grant permission for this office to contact me by telephone to discuss my account or treatment.
